THE MILLENNIUM UNIVERSITY COLLEGE

Graduating Batch 2018

Pearson & University of Hertfordshire Programmes

Message from CEO

CHAUDHRY FAISAL MUSHTAQ TI

Welcome to tomorrow, the future of education. TMUC aims to be an institution of higher learning dedicated to providing innovative undergraduate, graduate, and professional education. By bringing a range of international qualifications home, TMUC aspires to be recognized as the leading institution of borderless education, committed to providing opportunities that exceed local stream of education to the youth of Pakistan. TMUC has collaborative arrangements with renowned foreign institutions with professional and higher education portfolios.

Our students are passionate, thinkers, innovators, builders, drivers, social scientists of this society and the global village at large. The graduates of TMUC are ones that will compete with the best in the world and will rise and continue to make their Alma Matter proud. At TMUC our goal is for every student to graduate with international transformative, multicultural and global competencies, whether acquired at home or abroad. In partnership with colleagues in colleges and units across the globe, TMUC is a unique hub of research, service learning, internship and community projects that infuse experiential and inter-cultural learning and personally enriching experiences into our students' portfolios.

The students at TMUC undertake basic and applied research with a view of revolutionizing the study of entrepreneurship, leadership, technology, social and management sciences and many more; hence scaling emerging models and research that could eventually be translated into life-long learning, innovation, education and change for national development. By providing an eclectic portfolio of transnational higher education qualifications, TMUC assists Roots Millennium School's mission and commitment to developing the right set of skills, attitudes, knowledge and values within graduating Millennials so that they can confidently meet the global challenges of the 21st century.

I congratulate the 2018 graduating class of Higher National Diploma (HND), University of Hertfordshire (UH) BABA & Post Graduate Diploma SML at TMUC. My students are a reflection of our commitment to excellence and continued passion and dedication towards education. I urge my students to partake in social and community building and become agents of change and make us proud. I will always be their teacher, mentor, friend and CFM.

Message from Executive Director / Dean of Academics

SAFIA FAROOQI

The Millennium University College is designed to provide consistent , high quality and appropriate academic advising , monitoring , mentoring , nurturing and coaching to ensure your academic and personal success. We believe that with all the support available, including tutoring and supplemental instruction, all the students are expected to excel .

Your education will foster a sense of lifelong learning that is critical in today's rapidly changing work place and innovation driven global society. You will find here the kind of community that will stimulate your imagination, expand your knowledge and nurture the voice of conscience and compassion that extends the best practices to help create a more just , humane, prosperous and sustainable world for all.

I wish all my graduating class all the success and happiness and pray that there journey with us has been a fruitful one and that they continue to grow and spread joy.

Message from Director International Qualifications & Quality Assurance

KHOLAH YARUQ MALIK

The journey with this graduating batch has been tremendous as I have both learnt and unlearnt with them. We have all acquired roles of teacher and student from time to time. A bond was built, one that retires not. I wish them health, happiness, success and love. Like the philosophy of this great institution, we do not part ways ever and believe in passion for learning, and openness, I hope we stay in fond memories of each other, and smile when we look back at the time spent together under this big sheltering tree TMUC.

Anosh Tanveer

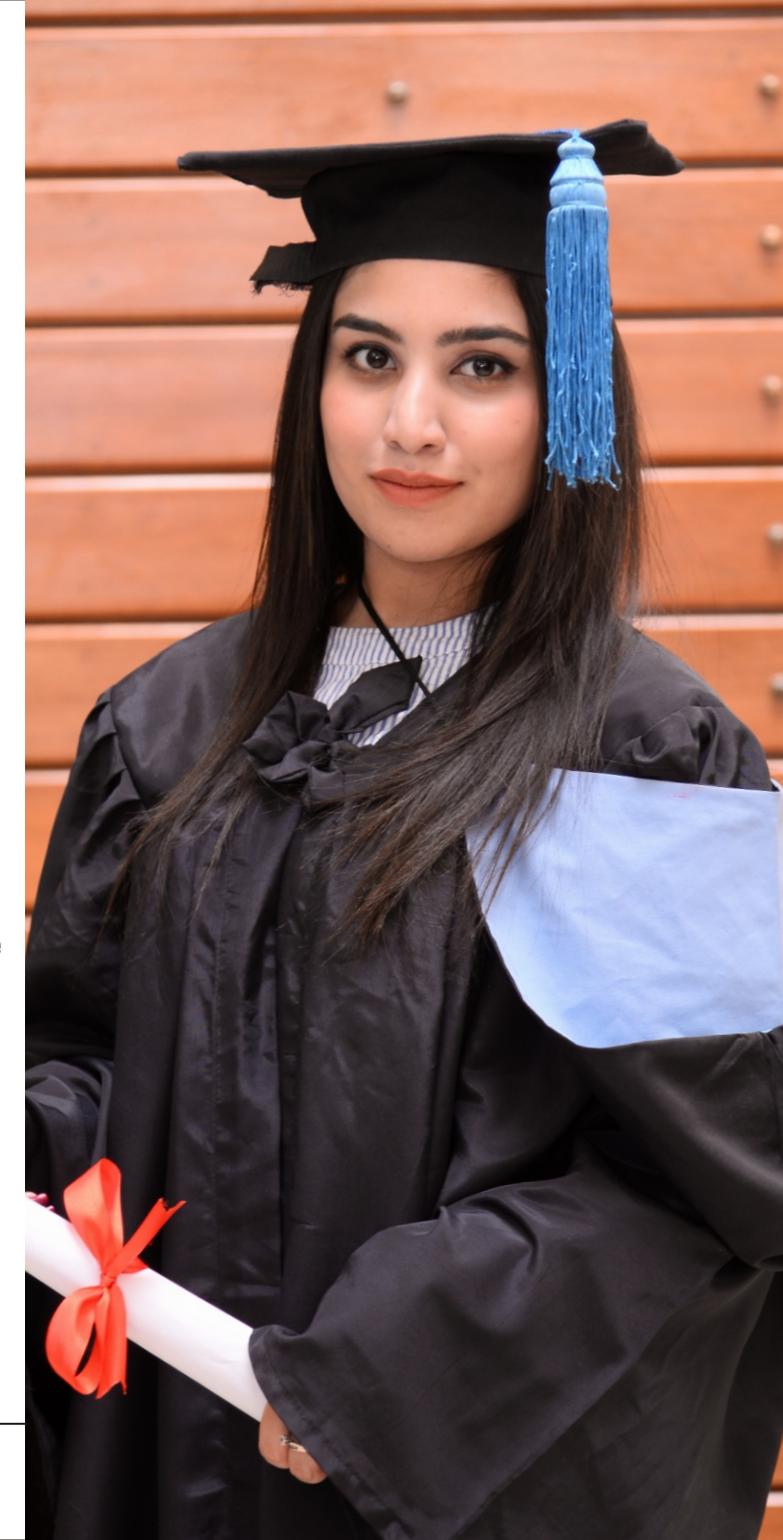

HND Business

“So, I say to you, forget about the fast lane. If you really want to fly, just harness your power to your passion. Honor your calling. Everybody has one. Trust your heart and success will come to you.”

You have to dance a little bit before you step out into the world each day; because it changes the way you walk. TMUC surely enlightened my personality and helped me flourish my skills in these two years, which gave me a closure to what I want to achieve in life.

So here's to my parents, my teachers and my university that made this journey possible!

Danya Khan

HND Business

Education they say is the key to success; I add that a transformative education is a candle that will light our paths when darkness shows its ugly face. It is the key that will open the doors of despair. It is the key that strengthens hope, and this is the education TMUC provided me.

TMUC surely did make my dream to become an independent woman come true! Which not only built my self-esteem but also gave a feeling of self-accomplishment.

Khadija Aamir

HND Business

Success is nothing more than a few simple disciplines, practiced every day. The future belongs to those who prepare for it every day. I thank all the people who made this possible, my teacher, my parents and my university to achieve my success. Studying with TMUC has given me the opportunity to learn about diverse subjects with the ease of obtaining a world class degree in my home country. For me TMUC is a very supportive institution

Bushra Nawaz

HND Fashion & Textiles

In response to those who say to stop dreaming and face reality, I say keep dreaming and make reality."

As a student of fashion and textile, TMUC made my dream come true of showcasing my work and walk the ramp, which has to be my biggest achievement of all that wouldn't had been possible without the help of my teachers, parents and my university. So TMUC surely polished my skills and made me the woman I wanted to be.

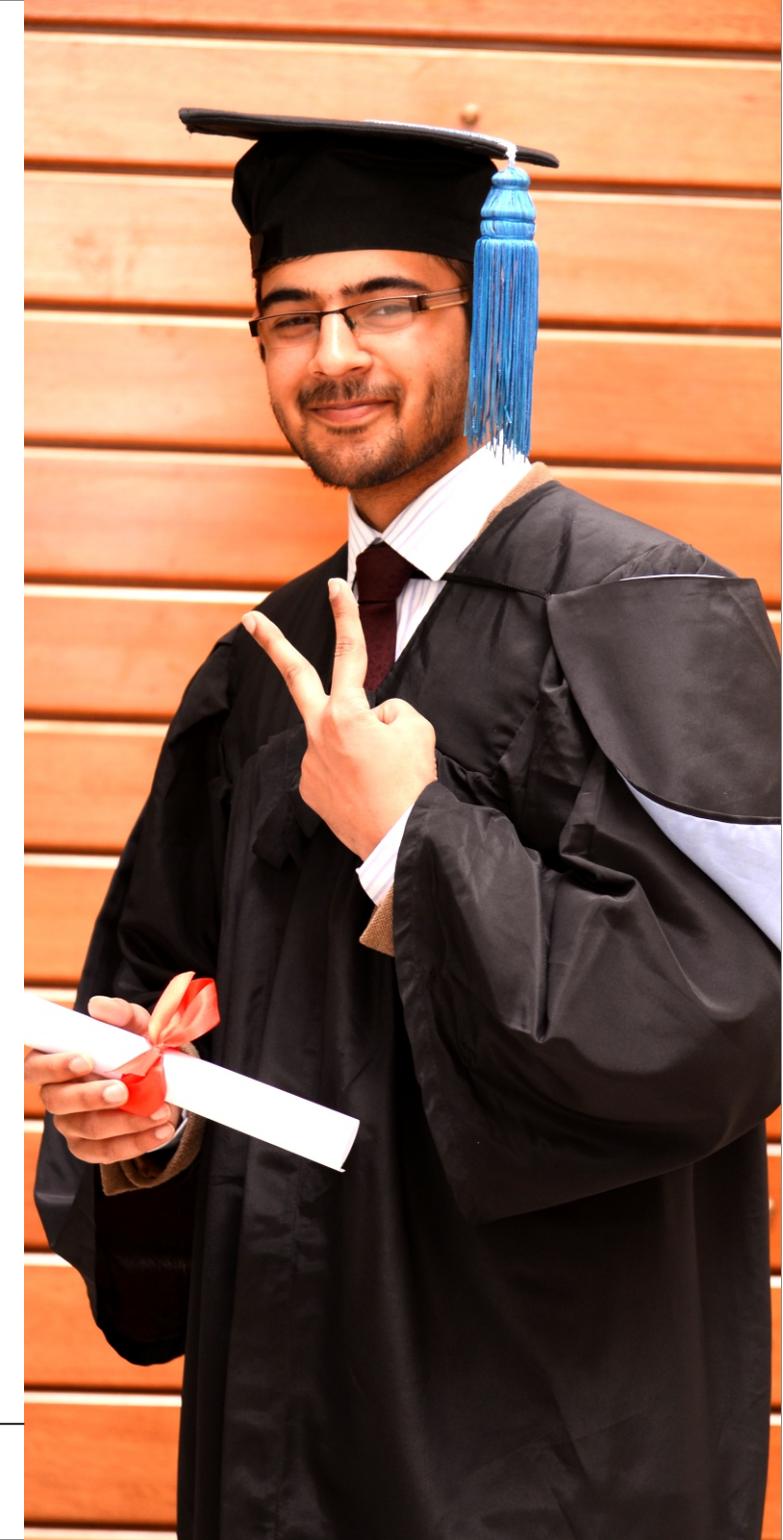

Nile Rizwan

HND Computing &
System Development

My time here at TMUC has been a great experience and in that time I have gained much support from TMUC staff and especially my teachers as they have guided me down the right path allowing me to make a decision of choosing the field of networking for my professional studies.

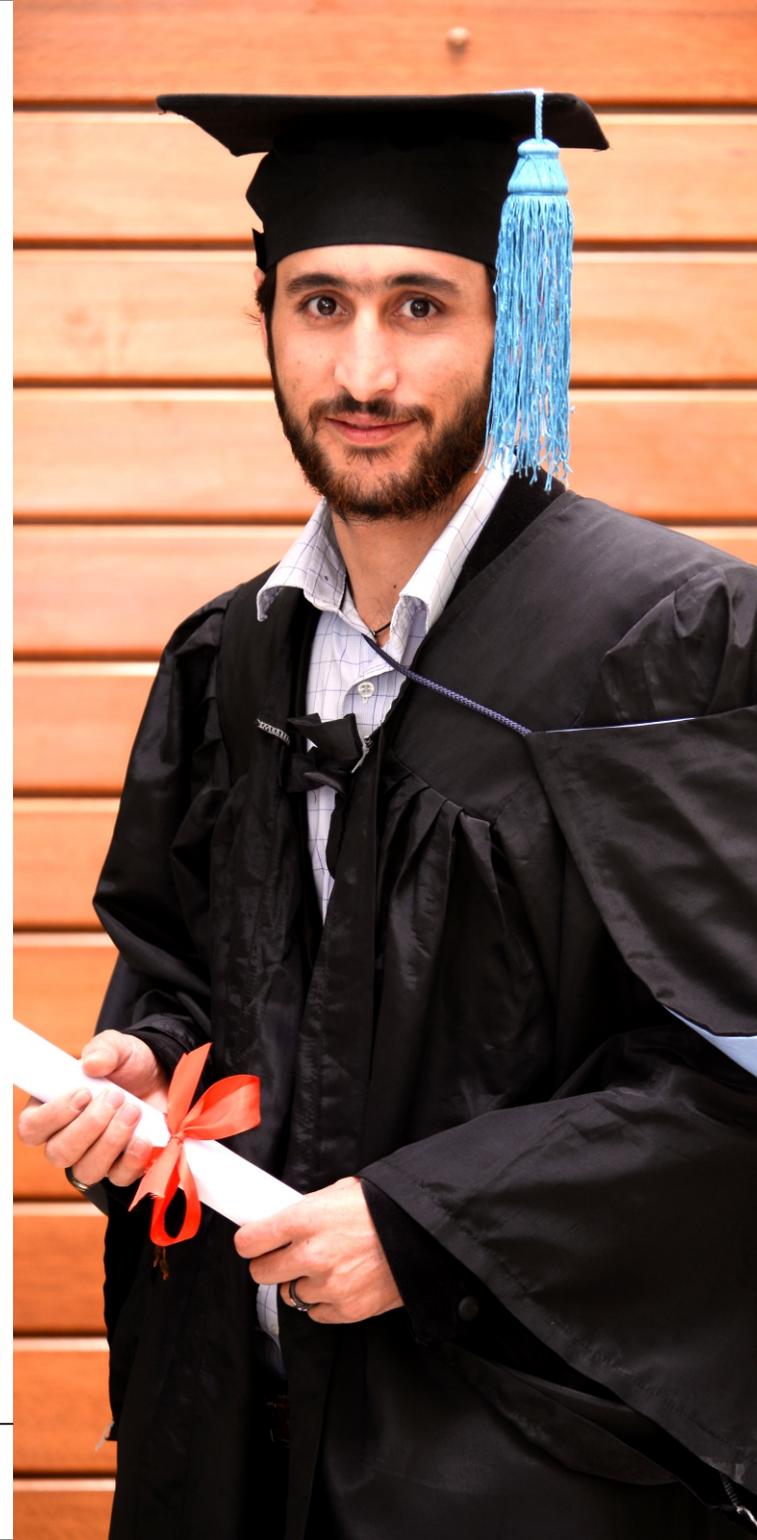

Sahar Ali Khan

**HND Computing &
System Development**

The Millennium University College was a very positive educational experience for me. What I have learned at college will definitely help me after I graduate. The teachers really cared about their students and were always more than willing to help in any way they could. Besides the great academic experience, I also enjoyed the athletic and social aspect of this college. There were plenty of ways to get involved, such as sports tournaments, volunteer opportunities and other activities. I loved my time at TMUC.

Shehroz Sheikh

**HND Computing &
System Development**

I feel that by doing this course HND Computing and Systems Development from TMUC, it has made my CV stronger. It will help me get a better job than what I'm already doing during my studies. The course material is easy to read and understand and was up to date and the entire faculty was competent and very helpful. Friends have supported me while I've done this course and lots of fresh students are willing to join this magnificent institute

Meeral Qaisar

HND Business

I am a highly motivated and self-driven individual that intends to do something meaningful for the country.

To further, enhance my predilection I enrolled for the Higher National Diploma in Business from The Millennium University College.

During my two years at HND, I learnt about various fields of business and got the opportunity to explore the broader aspects of it. I developed a strong fascination and in my first semester I scored a distinction. HND was a perfect blend for my capabilities that aligned with opportunities offered to look broadly and conduct research, develop business strategies. I worked hard and completed 16 units with merits and a distinction as a part of the class of 2017. Unlike most of the graduates who wander aimlessly after the graduation, I was lucky enough to get exceptional guidance. My hard work along with the guidance helped me in securing admission at Regents University London for the Top up Year in Global Management!

Hoor Iftikhar Rahim Khan

HND Fashion & Textiles

It seems like yesterday as I walked down the hallways trying to memorize the classrooms, the entrances and exits. My time at TMUC gave me the confidence & boosted my moral to succeed in my studies. I'm glad that I chose such a prestigious university to pursue my undergraduate studies. TMUC has the perfect balance of academia and social interaction between students and teachers alike.

As I bid farewell to all the teachers and staff. I take this opportunity to thank my teachers for all their effort, support & determination in making us all succeed.

I look forward to the future where one day I may return as TMUC alumni to share my experiences and knowledge with future students.

I am sad at leaving yet happy at the prospects the future will bring. As I walk through our campus, I am reminded of a quote "The future belongs to those who believe in the beauty of their dreams" (Eleanor Roosevelt).

Aminah Iftikhar

HND Business

It is that time again when you close another chapter of your life and move on to the next. But this chapter is the most crucial one, where we will be tested the most with everything we have learned and experienced. This phase in our life is the leap to adulthood, the transition towards being independent.

The years spent roaming in TMUC will always be cherished and loved by me. The memories created, the friends bonded will always be a vital part of me. I leave here with my head held up high, confident, loved and respected with no regrets and only fond memories.

To my teachers, I'm immensely grateful for all their efforts and guidance. I am fortunate for being a part of TMUC.

Mahnoor Zainab

HND Business

I have seen many institutions spring up in my city, but few to none have actually given the standard and quality that they promised. To achieve this is to provide students with the best and honorary international degree while sitting in their very own home town. Being really close to my family I am more than joyed to have chosen Hertfordshire degree. The factor which makes my degree all the more best and amazing is the fact that I am doing it from TMUC which has flourished regardless of anything in its way. It is like a ruthless vehicle carrying proud students within on the way to success. It has become an entity not to be reckoned with. The most proud thing for me is that I am a brick amongst many others who has built the foundations of this marvel.

Mahnoor Arif

HND Business

The ability to withstand all the challenges and competitions in life are not a big deal if you are groomed well. TMUC is a place where not only are we given quality education but also opens a new door towards better and tremendous opportunities every now and then. TMUC stands alone in the promising future of its students all over Pakistan, facilitating with a remarkable reputation.

The day I joined, TMUC has changed me a lot as a person not only in my academics but also my personality. I am proud to be part of this institute and the overwhelming experience that I have gained in these few years. No doubt, it is a door to a new life towards success.

Ada Fatima

HND Business

My name is Ada Fatima. I am currently pursuing my BA (Hons) degree in Business Administration from the University of Hertfordshire, United Kingdom at TMUC. I did two years of vocational course i.e. Higher National Diploma (HND) in business experience. Through this course I gained in-depth knowledge of various aspects of the corporate sector and business world. The grooming that I received in this regard was like obtaining practical knowledge of evolving concepts of business operations. This course encouraged me to conduct my own research on several business concepts and their practical manifestation in local business companies and national outlets of international business chains. I also benefitted from the assignment based and online grading as it is purely based on merit and objectivity. I got the honor of receiving diploma with four distinctions and merits in all assignments from Edexcel UK. Encouraged by HND course, I decided to enroll into the top-up program from Hertfordshire University offered by TMUC last year. The program consists of three semesters assignment based course which requires group work in some cases. Though I'm better off working individually, yet I enjoyed contributing my inputs as a team member. This experience is indeed beneficial as in the practical world one has to work as part of a management team.

Rukhsar Ejaz

PGD Level 7  Pearson

Coming to TMUC is a life changing experience. Where I got to meet good teachers who were there to guide me through every difficulty. It showed me the path to a successful career. The teachers here are the reason why today I am graduating as a PGD level 7 student having learnt different strategies to tackle tense business situations that will help me in my future. TMUC has provided professional and engaging learning environment, with enthusiastic lecturers actively involved in better educating their pupils.

Rashid ul Haq

PGD Level 7  Pearson

My journey of studying PGD (SML) Level 7 at TMUC has finally culminated. It was a tough one, but thanks to God Almighty, and the unceasing support of my family, friends, and teachers, especially Sir Naveed, I came through successfully. I want to extend my gratitude to everyone who has been a part of this journey and I wish them the best of luck for their future endeavors.

Ayesha Anjum

University of Hertfordshire

University of Hertfordshire **UH**

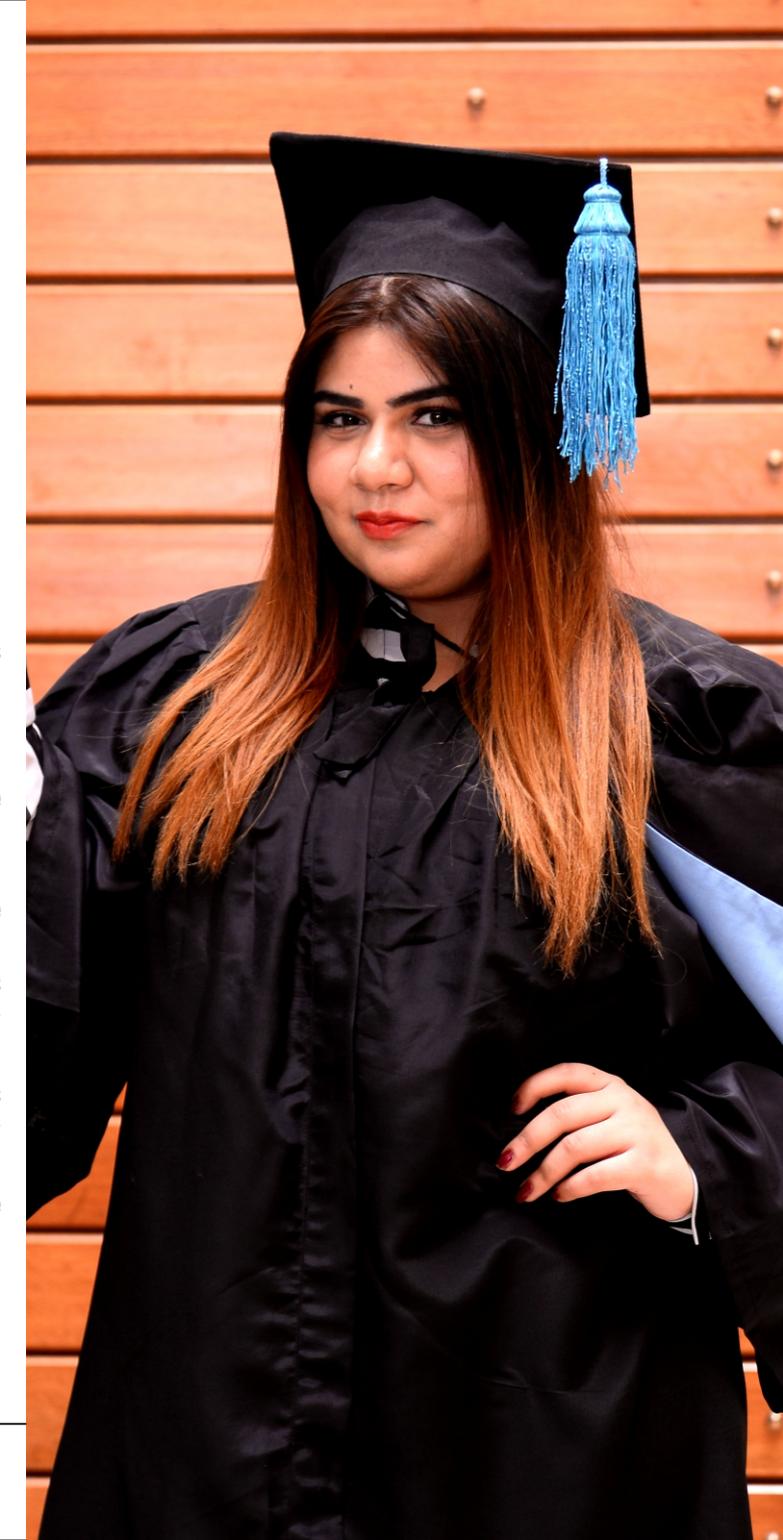

Nelson Mandela once said "Education is the most powerful weapon which you can use to change the world." Which indeed are words from the wise.

However, finding the right weapons to conquer the battle are often hard to figure out. Similarly, graduating high school and applying to colleges can be the most confusing time of any students' life. The case was similar to mine before i joined TMUC.

Three years ago, I was sitting in the university's admission office, having no clue of what interest and goals I wanted to pursue, but due to guidance and support of the amazing faculty at TMUC , I found my passions and career path in life , with the help of all the tools TMUC provides it's students . Three years later I have not only achieved but excelled in my goals.

Today I am a proud graduate of University of Hertfordshire which is an amazing institution that I had the pleasure of gaining most of my knowledge from.

I would like to thank everyone at TMUC for seeing the potential in me when I didn't even see it in myself. I will forever cherish the time I spent at TMUC.

Abbas Faridoon

University of Hertfordshire

University of
Hertfordshire **UH**

I believe everything happens for a good reason. I have always done things differently to achieve beyond my capabilities and bring upon some difference.

HND (marketing) was new for me but the hard work and tireless support of my teachers helped me shine through. TMUC has polished my skills and enhanced my abilities to achieve new horizons. Right after finishing my two years' programme, I was selected as Research Executive in one of Pakistan's reputed research companies.

I have been able to manage my job and BA (Hons) of University of Hertfordshire together and excelled at both. I dedicate my success to TMUC and thank Mr. Faisal Mushtaq for establishing such a prestigious university. TMUC is an incredible place to grow both personally and professionally.

Muhammad Majid Yaseen

University of Hertfordshire

University of
Hertfordshire **UH**

Time has gone by very fast and I have graduated from TMUC in a very short period of time. In one year of study at TMUC I have gained lots of new experiences. One year's university life can change a person's character very much. TMUC offers a culturally rich environment. TMUC is a community in which students, teachers and administrators work together. There are a lot of measures that can help students to find a good place in the university, three of which are remarkable; making friendship, living on the campus and doing extra curricular activities. One of the most valuable experiences that I got in the university is my group of friends. When I was at high school many people told me that friendships in university are very complicated. Thank you so much to TMUC staff and the management who offered me all these phenomenal services during my studies.

TMUC STAR STUDENTS

TMUC ALUMNI ASSOCIATION

**Education is the
most powerful weapon
which you can use to
change the world.**

Nelson Mandela

**Every truth has four
corners as a teacher,
I give you one corner
and it is for you to find
the other three.**

Chaudhry Faisal Mushtaq
University of London Graduate

At TMUC we strive to engage alumni through programs on and off campus that expand and strengthen the connections between them and our alma mater. The Alumni can come home to TMUC to mentor students exploring postgrad opportunities, participate in engaging discussions, deliver guest lectures, network with fellow alumni, discover new ideas, help in career placements for fellow alumni and so much more. An Alumni association has been founded at TMUC with the aim to create an environment in which TMUC students always stay connected to the University. Now that you turn another leaf in your story, stay connected with us.
