# THE MILLENNIUM UNIVERSITY COLLEGE

## Graduating Batch 2018

University of London International Programmes

## Message from the Pro Vice-Chancellor (International)

### DR MARY STIASNY

The University of London International Programmes is the world's oldest provider of degrees through flexible learning. Our internationally renowned awards have been accessible to students across the world since 1858. Today, we are proud to have more than 54,000 students in over 180 countries.

Teaching institutions have played a central role in the success of the University of London International Programmes over the last 155 years. Not only have they helped us realise our vision of providing a life-changing, high quality university education to those who could benefit, but they have enhanced the learning experience of countless students.

In recognition of this important role, in 2009 we introduced the Teaching Institutions Recognition Framework to formalise our relationships with teaching institutions. This framework aims to create closer links with selected high quality teaching institutions around the world, by recognising those that meet a set of specific quality criteria in respect to the support they provide to International Programmes students.

The Millennium University College is an Affiliate Centre for the University of London International Programmes. This is the highest level of recognition and means that in the considered view of the University of London it demonstrates a sustained commitment to developing excellence in respect of teaching, support to students and administrative processes.

We are delighted that TMUC is a member of our network of recognised centres and we hope that being part of this network will contribute to its ongoing development and result in an even closer relationship with the University of London International Programmes. Ultimately, this will help to ensure that International Programmes students at The Millennium University College have a high quality and rewarding learning experience.

## Message from CEO

### CHAUDHRY FAISAL MUSHTAQ TI

Welcome to tomorrow, the future of education. TMUC aims to be an institution of higher learning dedicated to providing innovative undergraduate, graduate, and professional education. By bringing a range of international qualifications home, TMUC aspires to be recognized as the leading institution of borderless education, committed to providing opportunities that exceed local stream of education to the youth of Pakistan. TMUC has collaborative arrangements with renowned foreign institutions with professional and higher education portfolios.

Our students are passionate, thinkers, innovators, builders, drivers, social scientists of this society and the global village at large. The graduates of TMUC are ones that will compete with the best in the world and will rise and continue to make their Alma Matter proud. At TMUC our goal is for every student to graduate with international transformative, multicultural and global competencies, whether acquired at home or abroad. In partnership with colleagues in colleges and units across the globe, TMUC is a unique hub of research, service learning, internship and community projects that infuse experiential and inter-cultural learning and personally enriching experiences into our students' portfolios.

The students at TMUC undertake basic and applied research with a view of revolutionizing the study of entrepreneurship, leadership, technology, social and management sciences and many more; hence scaling emerging models and research that could eventually be translated into life-long learning, innovation, education and change for national development. By providing an eclectic portfolio of transnational higher education qualifications, TMUC assists Roots Millennium School's mission and commitment to developing the right set of skills, attitudes, knowledge and values within graduating Millennials so that they can confidently meet the global challenges of the 21st century.

I congratulate the 2018 graduating class of Higher National Diploma (HND), University of Hertfordshire (UH) BABA & Post Graduate Diploma SML at TMUC. My students are a reflection of our commitment to excellence and continued passion and dedication towards education. I urge my students to partake in social and community building and become agents of change and make us proud. I will always be their teacher, mentor, friend and CFM.

## Message from Executive Director / Dean of Academics

### SAFIA FAROOQI

The Millennium University College is designed to provide consistent, high quality and appropriate academic advising, monitoring, mentoring, nurturing and coaching to ensure your academic and personal success. We believe that with all the support available, including tutoring and supplemental instruction, all the students are expected to excel.

Your education will foster a sense of lifelong learning that is critical in today's rapidly changing work place and innovation driven global society. You will find here the kind of community that will stimulate your imagination, expand your knowledge and nurture the voice of conscience and compassion that extends the best practices to help create a more just, humane, prosperous and sustainable world for all.

I wish all my graduating class all the success and happiness and pray that their journey with us has been a fruitful one and that they continue to grow and spread joy.

## Message from Director International Qualifications & Quality Assurance

### KHOLAH YARUQ MALIK

The journey with this graduating batch has been tremendous as I have both learnt and unlearned with them. We have all acquired roles of teacher and student from time to time. A bond was built, one that retires not. I wish them health, happiness, success and love. Like the philosophy of this great institution, we do not part ways ever and believe in passion for learning, and openness, I hope we stay in fond memories of each other, and smile when we look back at the time spent together under this big sheltering tree TMUC.

# Mahnoor Ansari

**Bsc Business & Management**

I am beyond grateful to have been a part of an institution like TMUC that instilled within me confidence and determination to achieve more than academic excellence and taught me to be a wiser and more empowered version of myself. My experience, however, would not have been this uplifting had it not been for my family and friends, who never let me set the bar lower than my potential. I am extremely thankful to UOL, my teachers, and administrators who constantly strived to provide me with the best opportunities and make this journey as amazing as possible.

Now that my three year long journey is coming to an end, I find myself in a very bittersweet position. On one hand I am saddened to leave this place but on the other I am excited to see what the future holds for me.

# Shahbano Asad

**Bsc Business & Management**

"Excellence is achieved in the pursuit of knowledge, seek knowledge & excellence will unquestionably follow." -BK

My journey here at TMUC has been an incredibly riveting experience. I feel truly blessed to have been given multiple opportunities to hone my talents in the best learning environment.

Being able to study under the provision of some of the best teachers in the country and counseled by most experienced, I have found faith in myself. I've come to believe that with my ideas paired with honest effort, no dream is too big and no goal is too far.

I'd like to thank all my teachers and counselors for always believing in me, encouraging me and most importantly enhancing my knowledge and polishing my skill set wholeheartedly, so that all my future pursuits may be within my grasp.

# Sarah Shahid

**Bsc Information System**

Every end has a new beginning. When the end is a stepping stone for a beautiful future, goodbyes don't seem to be that hard. My experience at TMUC has been one that I'll cherish forever. The different opportunities I had been offered have shaped me into a stronger, more confident and a more ambitious person. I believe that dreams do come true and I live by this now, thanks to my teachers who instilled confidence in me and taught me to have faith in myself against all odds. My journey here ends, but the memories I've made are immortal.

# Muhammad Rayyan Toru

**Bsc Politics and IR**

"When I could not go to the UK for my undergraduate education due to personal reasons, I was sad because I always wanted to live the experience of international education. However, after three years, I can proudly say that I made the right choice by coming to TMUC because of its highly engaging and supportive faculty along with the regulated standard of education which ensures that a very similar UK education experience is delivered to students. I will deeply miss my exceptional support of faculty and staff, and I would leave with a very important message, "Always focus on working on your weaknesses and be proud of molding them into your strengths".

# Zoya Waheed

**BSc Politics and IR**

My name is Zoya Waheed. I am a BSc (Hons) in Politics and International Relations student. I've always wanted to do a UK degree, but having lived abroad my entire life I wanted to study in Pakistan. Therefore I decided the best course for me would be to do a degree from the University of London International Programme. My reason for doing Politics and IR is quite a cliché one, but my reason nonetheless. I want to help the world, more specifically I would like to improve the condition and application of human and women rights around the world, and be a pioneer in the field. My advice for any student who has just graduated high school and is about to start university, or any student going into their final year of university would be to study on time and to never procrastinate, because that's never the solution. And on a general basis, do what you want to in life, follow your dreams and never back down from a challenge whether it be academic, social or career oriented.

# Ismavia Abbasi

**BSc Politics and IR**

Time spent at university is what moulds an individual, guiding them to pave the path that they will take in life. Despite the many hardships I've had to face in life, TMUC has taught me the true value of perseverance and time and time again reminded me that hard work and effort never go unrewarded. I would like to thank TMUC for transforming me into the individual I am today and for instilling within me the confidence to set forth and achieve wonders.

# Muhammad Shahzeb

**Bsc Business & Management**

My name is Muhammad Shahzeb and I'm graduating in BSc Business and Management from University of London. Completing this degree is not an easy task but the difficulty level of this degree helps increase your knowledge, makes you a hard working individual and also helps in building your intellectual abilities. It has made me grow as a person and helped me see the world in a broader perspective. I chose TMUC because it is recognized by HEC, also has a state-of-the-art campus and the best faculty available in the country. Furthermore, I'm also provided with constant guidance and support with respect to my degree as well as my career. I'm proud to be part of UOL and TMUC. Now let's see what future holds for me.

# Anooshey Mohsin

**Bsc Information System**

Graduation is a grand achievement in one's life! These past three years have gone by in just a blink of an eye! I still remember the day when I first walked into TMUC, thinking that this institution will help me achieve my goals! Choosing a UOL degree was a wise decision which I believe I took because it opens up a gateway of opportunities and is also recognized worldwide. By choosing the field of information system and management I believe that my dreams can be achieved as I have a passion for technology! And this institute made my dreams come true

In the end I would just like to quote

"The future belongs to those who believe in the beauty of their dreams!"

# Talal Sarwar

**Bsc International Development**

My name is Talal Sarwar and I will be graduating this year with a Bsc in International Development. Development is most often misunderstood as economic progress. I believe understanding development and related theoretical antecedents are key to understanding why there is such inequality both internally and globally. Hence I pursued this degree. TMUC has opened the world for me and I was able to graduate from one of the most prestigious universities, UOL. My experience in TMUC was great. I think what sets TMUC apart from other such institutions is that it not only offers great tuition but grooms students for future. Seminars, symposiums, best internships, we learn more than just what's in the textbooks.

# Rehan Hamid

**Bsc Economics & Management**

This day that I am cherishing today is not the terminus of my learning endeavor. For me this day illuminates ahead the arduous paths of life.

Education is the sea of knowledge every tutee shall traverse. It may drench us in the beginning but all we have to do is keep swimming until we emerge triumphant on the other side.

All that matters when I look back upon my journey is the small but continuous efforts that ultimately became big at the end. Hello! It's me from this side of the sea.

# Aneeqa Tahir

**Bsc Economics & Management**

We do not need magic to change the World; we carry all the power we need inside ourselves already: we have the power to imagine better. So here is to my parents who made it all possible. Thank you for your support and guidance.

Joining TMUC has undoubtedly been an immensely unique and a tremendous journey. It provides you with a diverse culture, ample opportunities and the support you need. It encourages you to do your best, even when times are tough. A bond is built, one that retires not. The University of London International Programme enhances your skill in such a way that you do not need to follow where the path may lead, but, instead, you go where there is no path and leave a trail.

# Abbas Khan Hoti

**BSc Politics and IR**

I am grateful to have been given this opportunity by TMUC. The three years I have spent here have shaped me as a person, I participated in the student council elections and managed to become the vice president for which I am eternally grateful. I firmly believe that my experience here will help me in my career as a politician and I will, with pride, tell people about my experience in this institute.

# Muhammad Shaheer

**Bsc Accounting & Finance**

Being part of the UOL international Programme at TMUC has been an overwhelming experience. It has made me grow as a person and helped me see the world in broader perspective. The UOL Programme has provided me versatile experiences and chances to interact on a global scale, helping me in shaping both my professional and academic career.

I am a proud graduate of University of London and TMUC and I cannot wait to see where life takes me next!

# Aryan Sultan

**Bsc Economics & Management**

First off, I wish to extend my warm congratulations to all the fellow graduates! I know it feels great and all at the same time a little frightening to realize that we all are finally about to embark on a new journey of our lives.

After graduation some of us will begin as professionals and earn money; others will continue their graduate studies, while a few of us will get married. In any case we all know that this is a major milestone in our lives. Let us start by being thankful to our parents for their unconditional love and support, our teachers for their patience, and a commitment to educating us to the best of their ability each and every day, and our TMUC administration for trying to figure out every day how to manage our needs.

I hope as soon as we graduate, we all begin with rigor and courage to pursue our dreams and achieve success!

# Khawaja Arsalan Rasheed

**Bsc Accounting & Finance**

The University of London International EMFSS programs are as challenging as they are rewarding. And what better institute is there to guide you through them than the Millennium University College? Indeed the experience was in equal parts exhilarating and exhausting, requiring both diligence and perseverance. The excellent faculty at TMUC was always there to make the journey ever so slightly easier and all the more enjoyable. Completing my BSc in accounting and finance will be my gateway into the world of professional chartered accountancy. This was what I had always aspired to take up as a profession. The degree however, has opened up a world of possibilities in both finance and economics for me allowing me the liberty to choose a path best suited to me. And that is the beauty of these EMFSS programs; the liberty to choose. Whoever you are and whatever you may aspire to become, getting a degree from The University of London with an institution like TMUC will be the best decision you make.

Here's to the most enlightening three years of my life!

# Sikandar Khan

**Bsc Economics & Management**

My time at TMUC has been a life changing experience, where apart from the invaluable education I received, I discovered myself and expanded my horizons and learnt to take life head on. Here, at TMUC, I found the confidence to realize my dreams, to take the path less trodden. The campus facilities, administration, teaching/non-teaching staff and fellow students have all been really supportive and amazing over my course of time. The University of London International Programmes offered at TMUC are globally renowned and the courses you get to study in the degree are vastly knowledgeable, very challenging and quite interesting at the same time, which makes me feel more confident and well-equipped for my future.

# Bilal Haider Junejo

LLB Hons

Yes, my dear (i.e. whoever it is that I have the pleasure to address), I have loved, and loved with such a passion as the worthy Eros himself could scarcely ever hope to emulate. And these are in no wise the ravings of some jilted and lovelorn swain— indeed, if the gravamen of unrequited devotion is to be sustained against any mortal now roaming this motley planet, then it must assuredly be contra my indolent self, for during the three years of bliss and serenity that it has been my incomparable fortune to spend here, I had but to conceive of an amenity before dear old TMUC promptly stepped in to furnish me with just that, seeking nothing by way of return but the fulfillment of their legitimate, yet altruistic, demand that I procure— to my glory, the institution's renown, and the world's inevitable envy— an academic record without parallel in the century and a half that has elapsed since the commencement of the noble venture that is the University of London International Programmes. Thus, be it the bibliophile's own library that they maintain here or those august halls and corridors that lead to it, the munificent scholarship I was granted or those selfless professors whose uncompromising standards of performance enabled me to achieve one, I shall forever remain endowed with ample cause to reflect on my time here with nothing but feelings of the tenderest regard and nostalgia that only the highly obliged are ever able to exude. Thank you TMUC.

# Syed Ali Asghar

LLB Hons

"Live for the moments you can't put in words."

Everybody wants to shine in life but no one wants to face the hardships that lead to it because even a diamond shines only after it has been pruned. Welcome the problems with open arms because without obstacles there's no value of the win.

This degree has taught me a lot of things and made me stronger. But actions speak louder than words and that's just what my future holds, a lot of ACTION!

# Rameez Pesnani

LLB Hons

My last two years at LLB have been of a high standard, thanks to the teachers and administration of TMUC. Tons of opportunities were put forward by the University which would help us excel in our careers. Their support has helped me grow not only as a career oriented person but also it has helped me reach a level I never thought I could reach.

I can say proudly that coming to TMUC for my LLB was one of the wisest decisions I've made in my life since academics is not the only purpose. It was a wonderful experience and I will surely remember each moment.

# Saad Tariq Khan

LLB Hons

So, the time to bid farewell is already at hand, an unpleasant truth from whose rude shock I still reel. Whether or not I would have been able to procure such a prestigious degree as that of LLB Honors from the University of London without the tutelage of TMUC must necessarily remain a moot point, but what is certain is that under it, I have achieved one of the seminal milestones of my life, something for which I shall remain eternally grateful to the dedicated administrators and teachers at the College, as well as to all my wonderful peers for having rendered the entire era worth my while. My profuse thanks to everyone here for having helped me to hone my legal talents. May the Almighty's blessings forever be with you. Amen!

# Muhammad Yousaf Khan

LLB Hons

It seems like yesterday when I came to TMUC to inquire about the programs it was offering and now I'm at the verge of completing my graduation. Time indeed flies! I'm grateful to God that he made me choose TMUC for my degree of Bachelors in Law. During my final days of A-levels, I used to see my friends applying to get into foreign universities whereas TMUC offered me top class law degree from University of London while I'm still living at my hometown! That's the greatest blessing. One of the best features of TMUC is that TMUC believes in cooperation with their students in their educational programs. I saw teachers making time tables and even making changes to them to make the life of students more convenient. Student feedback was always important for TMUC to make sure only the best teachers are available for its students. The law degree at TMUC made me a hardworking and more mature and a consistent person. As famous Canadian novelist Russell Smith said, "Universities can teach maturity. They can teach teenagers how to be adults, and that means to function outside a clique or a tribe". I have many memories and friends here, space learned new lessons here which are essential for a successful life and in the end my soul is satisfied that I chose TMUC Islamabad as my university.

# Maryam Bhatti

BSc Politics and IR

I really had an excellent time of my educational career while studying at TMUC. Thousands of students opt to get an international degree every year. It provides us an ample opportunity to learn in congenial atmosphere and enhance our personality. It also encourages people from different cultures and civilizations to exchange their understandings. UoL gives us chance to study in quite a congenial learning environment where personality growth of the students takes place. Moreover, an international degree broadens our vision, polishes our skills and incurs confidence to the students to accept challenges of life.

# Minahil Butt

BSc Politics and IR

I am Minahil Butt, a BSc Politics and International Relations student at TMUC. This degree does not only improve your intelligence, but also helps in building your intellectual abilities. TMUC gave me opportunities to be innovative and to be best of who I am.

I have grown personally, academically and most importantly as a global citizen. I'm a proud graduate of UOL. Let's see what the world has to offer me now.

# Shafia Shahid

**Bsc Business & Management**

Every success, be it large or small, is proof that you are capable of achieving more successes. Celebrate each success. You can recall it when you begin to lose faith in yourself.

# Abdul Munem Ali

**Bsc Business Management**

Studying business and management at The Millennium University College has been a unique and inspiring experience. I chose TMUC for its warm and informal atmosphere, caring and friendly staff and generous student support.

# Arsalan Sheikh

**Bsc Business & Management**

I have wracked my mind and heart for what I ought to say to you today. I asked myself what I wished I had known at my own graduation, and what important lessons I have learned in the 21 years that has expired between that day and this.

#thankyouTMUCforthiswonderfultmoment.

This is the happiest day of my life.

# Kiran Aftab Qazi

**Bsc Accounting & Finance**

I can proudly say that I made the right choice by coming to TMUC because of its highly engaging and supportive faculty along with the excellent standard of education. I will miss the exceptional support of faculty and staff.

# TMUC STAR STUDENTS

**Saif-ul-Islam, Zahra Sajid & Muhammad Pervez**

TMUC Global Entrepreneurship Week 2018-Hult Prize National Start-up competition / First Hashoo Youth Entrepreneurship Start up Competition

**Abiha Haider**

University of London Graduate

At TMUC we strive to engage alumni through programs on and off campus that expand and strengthen the connections between them and our alma mater. The Alumni can come home to TMUC to mentor students exploring postgrad opportunities, participate in engaging discussions, deliver guest lectures, network with fellow alumni, discover new ideas, help in career placements for fellow alumni and so much more. An Alumni association has been founded at TMUC with the aim to create an environment in which TMUC students always stay connected to the University. Now that you turn another leaf in your story, stay connected with us.
